

ESTEEM OVERVIEW

MICROSOFT AZURE SOLUTIONS TO SUPPORT GDPR COMPLIANCE

Whether you already have a Microsoft environment or are considering certain Microsoft products, in this infographic, we outline the key tools you can utilise from Microsoft Azure to support your organisation with GDPR compliance.

GDPR COMPLIANCE AREAS

WHERE MICROSOFT ALIGNS

MICROSOFT AZURE

The Focus

Right of access
Right to be forgotten
Data minimisation

Offerings

Azure Active Directory

Ensure that only authorised users can access your computing environments, data, and applications, with policies to control, manage and report usage.

Azure Information Protection

Whilst this has clear security benefits, this allows you to classify, label and protect new or existing data, share it securely, track usage and even revoke access remotely.

The Focus

Ease of reporting

Offerings

Azure Information Protection

Includes rich logging and reporting capabilities to monitor distribution of data.

Log Analytics

Provides configurable security auditing and logging that can help you identify and repair gaps in security policies. It provides insights using search dashboards to analyse records across all workloads and servers.

The Focus

Cybersecurity

Offerings

Azure Security Centre

Provides visibility and control over the security of your Azure resources. Continually monitor your resources and prevent, detect and respond to threats. Identify threats with embedded advanced analytics.

Data Encryption in Azure Storage

Secures your data in transit or at rest. Additionally you can use Azure Disk Encryption to encrypt operating systems and data disks used by virtual machines.

Azure Key Vault

Safeguard your cryptographic keys, certificates and passwords. Monitor and audit use of stored keys with Azure logging.

Azure Information Protection

Whilst this has clear security benefits, this allows you to classify, label and protect new or existing data, share it securely, track usage and even revoke access remotely.

The Focus

GDPR Compliance

Offerings

GDPR Gap Analysis

Understand where you currently stand in relation to the the compliance requirements under the GDPR. Analyse the gaps in your processes and receive complete advice on the remediation steps required to be fully compliant.

Gold
Microsoft Partner
